

Josh Cremer, owner of

Josh Cremer Photo & Video

Petition for Exemption

To whom it may concern,

I own and operate a small commercial photography and videography business in Boise Idaho. This business is my life, livelihood, and a means of providing for my family. The work I do involves creating professional images and videos for commercial entities such as real estate listings, vacation rental homes, events etc... I use 1 small drone with a camera mounted on the front for my work. The aerial footage I obtain with this piece of equipment is part of what drives business for me and entices customers to purchase my products.

When I use my drone I always obtain permission from the owner of the properties I photograph. I never fly the drone recklessly, I always make sure I can see the craft and that there are no people around that could be injured. I have been flying model aircraft and drones for a long time and am a very safe and careful operator.

I would very much appreciate your approval for exemption for Josh Cremer Photo & Video so that I may continue operating my business here in Boise.

Thank you very much for you time.

Sincerely,

Josh Cremer
